Number To Know...33

by

The first three months of 2017 saw 33 medtech M&A deals completed and announced, as recorded by *Medtech Insight's* M&A tracker.

33 is the number of medtech M&A deals recorded in the first quarter of 2017, underlining a slow start to the year. March deal volume hit a further low, with only nine deals. This is in stark contrast to the previous year, then 51 deals were recorded for Q1 2016.

For more details about M&A trends in March and how it compares to the previous months and to 2016, read *Medtech Insight's* analysis [here](#).
