QUOTED. Jan. 11, 2018. Patrick Hope.

by

Check out what Patrick Hope, executive director of the Medical Imaging & Technology Alliance (MITA), had to say about why his organization created a new director-level post targeting cybersecurity.

"Cybersecurity is a top priority for manufacturers of all internet-connected devices, and critical for the millions of patients who depend on these life-saving technologies." –Patrick Hope, executive director, Medical Imaging & Technology Alliance
