QUOTED. July 2, 2018. Juhi McClelland.

by

Tech giant IBM is teaming up with Aramark to fight hackers and tackle cybersecurity threats in hospitals. See what IBM's Juhi McClelland said about it here.

"Aramark's whole mission is dedicated to medical device support, so we're basically trying to go after their current hospitals where they are already performing multivendor medical device support." –Juhi McClelland, general manager of Technology Support Services, IBM
