QUOTED. July 10, 2018. Joseph Drozda.

by

Missouri (US)-based hospital system Mercy is working with Johnson & Johnson and Medtronic on real-world data projects. Mercy's Joseph Drozda explains why the hospital is a go-to partner for device firms here.

"Not only does Mercy have diverse data, we have the data platform, quality, scale and sophisticated data scientists to turn this data into meaningful information." – Joseph Drozda, director of outcomes research, Mercy Hospital Systems
