QUOTED. Sept. 27, 2018. Oliver Bisazza.

by

Is it legally possible to make changes to the EU's new Medical Device and IVD Regulations to create more time for essential structures to be set up and for industry to comply? MedTech Europe's Oliver Bisazza believes so. See what he said here.

"I am convinced that that there are available legal routes to changing the MDR and IVDR."
–Oliver Bisazza, director of regulations and industry policy, MedTech Europe
