

18 Oct 2018 | Analysis

Device Week, Oct. 18, 2018 – Digital Health Market Intelligence; New Blood Therapies Harvested From The Ocean

by [Reed Miller](#)

In this edition of Device Week, *Medtech Insight's* Marion Webb gives an overview of her new Market Intelligence article on innovative digital technologies applied to cardiology and Catherine Longworth reports on a Hermarina – a company in Brittany helping to build France's "blue economy" based on marine resources – which has developed several products, including a blood-replacement therapy, from a certain type of sandworm.
