# Device Week, Nov. 15, 2018 – Digital Solutions Of The Future, And Clinical Trial News And Insights

by [Reed Miller](#)

On this week's podcast, Reed Miller talks to *Medtech Insight's* managing editor Marion Webb about digital health technologies of the future, showcased at the Exponential Medicine conference in San Diego, featured in depth in the latest Market Intelligence story. *Medtech Insight's* deputy editor Reed Miller introduces *Medtech Insight's* new "Tracking Trials" section, which features a list of trials that are starting, ending or finishing enrollment; including the "Results Recap," a summary of trials that announced results. He also gives an update of key clinical trial news from this week's American Heart Association meeting in Chicago.
