QUOTED. Jan. 31, 2019. Julie Khani.

by

Sen. Chuck Grassley cites a US Government Accountability Office analysis in arguing the Medicare agency may be preparing to overpay clinical labs, but the lab industry says GAO is misguided. See what the American Clinical Laboratory Association's Julie Khani has to say about it here.

“GAO concocts a hypothetical scenario that suggests labs are unbundling these tests and receiving higher reimbursement – this is grossly inaccurate.” – Julie Khani, president, American Clinical Laboratory Association
