Device Week, 20 June 2019: ADA 2019 Key Players; Trial Results From Global Kinetics And Myriad Genetics

by [Marion Webb](#)

In this edition of Device Week, *Medtech Insight's* Catherine Longworth chats with Marion Webb about her upcoming Market Intelligence story based on interviews with the biggest players in the diabetes market at the recent annual American Diabetes Association meeting. And Reed Miller discusses Global Kinetics' recent data on its Personal KinetiGraph that can help identify Parkinson's patients most likely to benefit from device-assisted therapy and Myriad Genetics' POLO trial results.
