While Medtronic PLC's Brain Therapies business was by far the fastest-growing unit in the first quarter of fiscal 2020, sales of spine surgery products grew faster in the first quarter than they have in nine quarters. See what Medtronic's CEO Omar Ishrak said about it here.

“Our strategy of offering our enabling capital equipment with our spine implants is working, as we are growing well above the spine market growth.” – Omar Ishrak, CEO, Medtronic
