QUOTED. 7 November 2019. Seema Verma.

by

The US Medicare agency has released a home-health use final rule detailing coverage of a permanent home infusion-therapy benefit for patients under Medicare Part B. See what CMS administrator Seema Verma said about it [here](#).

"The home infusion-therapy benefit increases the availability of home-based care by giving patients the choice ... to receive critical treatment safely at home." – Seema Verma, administrator, US Centers for Medicare and Medicaid Services
