QUOTED. 9 March 2020. Jan Kimpen.

by

For its fifth annual Future Health Index, Royal Philips chose to focus on the insights and needs of health care professionals below the age of 40. See what the company's chief medical officer, Jan Kimpen, had to say about the challenge of preventing burn-out in this group.

“If we don't adapt the health care delivery system to their needs, we will lose them, which is something we cannot afford.” – Jan Kimpen, chief medical officer, Royal Phillips
