QUOTED. 16 March 2020. Thomas Schinecker.

by

Roche announced it developed a test for SARS-CoV-2, the virus that causes COVID-19 disease, to run on Roche's cobas 6800 and 8800 molecular testing systems. See what Roche's CEO Thomas Schinecker said about it [here](#).

“Over the last weeks, our emergency response teams have been working hard to bring this test to the patients. CE-mark certification and the FDA’s granting of EUA supports our commitment to give more patients access to reliable diagnostics which are crucial to combat this serious disease.” – Thomas Schinecker, CEO, Roche
