QUOTED. 23 April 2020. Glenn Snyder.

by

Telemedicine and other digital technologies should be a key part of post-pandemic strategies for medtech companies. See what Glenn Snyder, principal medtech practice leader for Deloitte Consulting LLP, advises companies to do here.

“Medtech companies should be agile and ready to respond to a robust demand for services and products once this event subsides.” – Glenn Snyder, principal medtech practice leader, Deloitte
