QUOTED. 8 September 2020. Bakul Patel.

by

Medtech Insight spoke to US FDA digital health guru Bakul Patel about his journey and vision for the future. Here's what he had to say about ongoing changes in digital health regulation.

“In the space of digital health, nothing is static – which means you may not be regulated today, but as technology and connectivity and software evolves, the same product may find itself to be regulated down the road.” – Bakul Patel, associate director for digital health, CDRH
