# QUOTED. 1 October 2020. Stephen Hahn.

by

The head of the US Food and Drug Administration praised the life-saving work of device center staff in response to the coronavirus pandemic.

“While incredible work is being done across the FDA in response to the COVID-19 pandemic, I am very proud of CDRH’s historic response, continually adapting and innovating to meet the public’s health care needs as the pandemic continues to evolve. Their work has been, and will continue to be, a critical part of the U.S. response.” – Stephen Hahn, commissioner, US FDA Commissioner
