QUOTED. 16 June 2021. Alon Zuckerman.

by

Immersive technologies are becoming a reality in the OR. Alon Zuckerman, chief operating officer and president of Surgical Theater, spoke about how the company's flight simulator-based system helps surgeons "fly" through the brain.

"Imagine a soldier in a combat field that has a rifle and they need to see around the corner – they can only see the line of sight – but if they have something that allows them to see around the corner, that will give them a lot of information to understand what they need to do." – Alon Zuckerman, chief operating officer and president, Surgical Theater
