Akili Interactive Labs, which developed the first prescription-only video-game-based platform to be cleared for marketing by the US FDA, recently announced plans to go public through a SPAC merger with Social Capital Suvretta Holdings Corp. I. See what Chamath Palihapitiya, CEO of Social Capital and CEO of Social Capital Holdings Corp. I, said about it here.

“While Akili’s patented technology is used to treat ADHD today, they have the opportunity to eventually treat a whole host of other cognitive issues like major depressive disorder, multiple sclerosis, and autism spectrum disorder.” – Chamath Palihapitiya, CEO, Social Capital Suvretta Holdings Corp.
