QUOTED. Dec 20, 2017. Laurent Grandidier.

by

Check out what Xeltis CEO Laurent Grandidier has to say about the deterioration of the European environment for clinical innovation.

"A few years ago, Europe was the champion of medical innovation, with innovative and forward looking key opinion leaders and a favorable environment... There is a sad consensus amongst my peers that Europe's role in medical innovation is poised to decline without drastic policy changes." – Laurent Grandidier, CEO, Xeltis
