QUOTED. April 13, 2018. Ora Dar.

by

Check out what Ora Dar, from the Israel Innovation Authority, had to say about the country's plans to branch out globally in digital health.

"For increasing the access to health organization globally, we plan to establish new collaborative agreements and accessibility for pilots in health care organizations in US, Europe and maybe also China." – Ora Dar, head of the life sciences sector, Israel Innovation Authority
